

Poly Prep Hockey Team Playing a Strong Game

Farah Brothers, Sherman, Gladstone, Stratton, Kendall and Schiebler Clever Septet

Followers of metropolitan hockey have complained for years that the sport was slowly but surely dying of dry rot. The same men kept playing each winter, growing slower and slower as the seasons passed, and no new blood ever crept into the game. The Amateur Hockey League knew what was to blame, but until last winter the remedy could not be applied. The whole fault lay in the management of skating rinks. For years the only hockey players considered worth while were the semi-professional tourists from Canada.

The building of the Brooklyn Ice Palace last winter changed the whole hockey situation. Its management knew nothing of the game, and, listening to the older members of the Amateur Hockey League, it consented to allow the Brooklyn schoolboys to play a championship series. It was rather stiff going at first. Hockey was practically unknown in the Brooklyn schools, but the boys were willing enough to learn. They went at the game with a will, regardless of the fact that their practice periods and games were played at the most inconvenient hours.

Public Slow to Awake At first the Brooklyn schoolboy public did not take kindly to the sport. The men who owned the Brooklyn Ice Palace said nothing, simply waiting to see if the Amateur Hockey League had the right "dope" on both the hockey and the schoolboy situation. To-day the Brooklyn Ice Palace realizes that hockey is the coming sport among the schoolboys and that, within another winter, the game will rank with football in general popularity.

It is astonishing how fast the Brooklyn schoolboys have picked up the pastime. No school has shown so better advantage in the P. S. A. L. championship race than Poly Prep. In olden days Poly Prep always had good teams. Unless indications are wrong, the sport in future is going to be popular at Poly Prep. Captain Byrne Farah, captain of this year's seven, hit the nail on the head when he said yesterday:

"We are going to have some great hockey players at school every year. The next few years. There is a fairly good-sized pond on the new property of our school and that pond is going to be the making of good hockey players. Already we have four 'kids' on the team. These boys are going to grow and inside of a few years Poly Prep should be able to hold its own with any school in the country, not excepting St. Paul's School, of Concord, N. H."

The admission of Poly Prep to the P. S. A. L. championship series has caused some comment in the scholastic sporting world. Poly Prep is a private school. Notwithstanding that, for every other school in the league was anxious to have it as a competitor. It must be remembered when hockey was started last year the series was not in public schools only. The organization was called the Long Island Interscholastic Hockey League, and in addition to the public schools St. John's Prep, another private school, also competed for the championship. This year the P. S. A. L. took over the league and invited Poly Prep to compete for the title and the medals offered by the Amateur Hockey League.

Excellent Chance to Win Judging by the work of the teams to date, Poly Prep has an excellent chance of winning either the first or the second set of prizes. The stars of the team are the two Farah brothers. The older, Captain Byrne Farah, is a senior and plays snappy hockey. He easily is the star of the Poly team, and, next to him, the sensational Erasmus player, Frank Farah, his brother, also plays cool hockey. He has been holding down right wing and looks like the best boy at that position in the league. On the line there are also Sherman and Gladstone, two boys who picked up the game at the Brooklyn Ice Palace. Each is doing well. The defense is made up of Stratton and Kendall. Both are strong, solid players. Carl Schiebler, the star football player, is playing good hockey. It is interesting to note that no less than four captains play on the Poly Prep hockey team. They are the leaders of hockey, football, baseball and basketball. The fact that the star of the school are all playing the ice pastime is proof positive that the winter game is making great headway at the big day country school.

Buffalo Developer Of Star Catchers

Where the Portland Coast League club has enjoyed the reputation of being a great team to develop pitchers and shortstops, Buffalo must be entitled to the prize for turning out star catchers. Jimmy Archer was not good enough for Detroit in 1907. Two years previously Pittsburgh also had sent him to the minors. Buffalo took him in 1908 and ever since Jimmy has been one of the real great backstops, and one year was all he had to stay at Buffalo.

Bill Killefer was not clever enough for the St. Louis Cardinals in 1910 and he drew a ticket to Buffalo. He lingered there just long enough to show that he had the real goods and then went on to the Phillies. Wally Schang put in part of the 1912 campaign with the Bisons. Eleven of the sixteen big league clubs put in drafts for him. Connie Mack was the lucky manager.

Hank Gowdy was too slow for the Giants. McGraw let him go to Buffalo for the season of 1913 and the following October Hank was the big man in the world's series, being a big factor in the four straight victories scored by the Braves.

Buffalo, however, is not the only international League town to develop star backstops. Bill Carrigan and Bill Fischer got their start at Toronto. Tom Clark and George Gibson served at Montreal prior to landing in the big league. Eddie Burns, of the Phillies, was with Montreal in 1913. Oscar Stange, of the Tigers; Forest Cady, of the Red Sox; and Lew McCarty, of the Giants, came from Newark.

N. Y. U. Five Forfeits Contest to Montclair

Montclair Academy won a basketball game by forfeit, when the New York University freshman team was taken off the court by its coach with two minutes to play in a contest on the Montclair courts yesterday. The Violet coach declared that the decisions of Referee Moller were biased.

When the New York team left the court the Montclair five was leading by 15 to 9 in the first half and was even taken early in the second period. Fouls were committed often, New York caging seven and its rivals ten. The line-up follows:

New student officers of the Fordham University Athletic Association were chosen yesterday. The elections are generally held in June, but owing to enlistments a new slate was selected. The officers who will serve for the balance of the year follow:

President: Francis V. Farrell, New Rochelle; Vice-president: Joseph M. Dalmases, New York City; Treasurer: John M. Curran, New York; Secretary: Richard A. Kehoe, New York.

Strict With Boxers

CLEVELAND, Feb. 2.—Clubs desiring permits to conduct boxing shows in Cleveland henceforth must pay their applications with a certified check for \$15,000. All forfeits for weight and appearance must be posted with the commission and the weighing-in must be done under the supervision of the city sealer.

Reports of the dual swimming meet of last week between Ann Arbor and Princeton failed to give credit to the Middies for the national intercollegiate record they set in the 160-yard relay race. The event was won by Thompson, Dickens, Francis and Coggins in 1 minute 19.4 seconds, time which disposes of the former standard of 1 minute 20 seconds, made by a quartet from Chicago University in 1916.

Joseph Ruddy, the veteran New York A. C. water polo star, has been recruiting material for the game with the team on Feb. 22, which will be played under college rules, and has pressed into service enough old-timers to form a team. Almost without exception they are men who were active in competition twenty and more years ago, but Ruddy believes they will be able to make it interesting for the crack New Haven sextet.

News comes from California that plans are on foot for Miss Dorothy Burns, the world's 50 and 100 yard open water girl recordist, to accompany Mrs. Aileen Allen, the fancy diver champion, when the latter comes East this spring for the national A. A. U. springboard title test for women.

The Olympic Club of San Francisco has booked for its swimming team a meet with the watermen of the aviation camp at Berkeley, and it will be held shortly in the club pool. Norman Ross, the all-around champion of 1917, will lead the aquatic birdmen.

The Public Schools Athletic League is preparing to hold a championship swimming tournament for high school freshmen and will add individual title contests for the yearlings at its conclusion.

These Boys Are Making Hockey History for Poly Prep

Hickey Favors Military Drill In Associations

CHICAGO, Feb. 2.—Military training of baseball players will be carried out in the American Association next season, Thomas J. Hickey, president of the league, has announced. Efforts probably will be made to have the War Department detail military instructors with each of the eight clubs. These details will be mapped out at the schedule meeting of the association, to be held in Milwaukee next month.

President Hickey said the association faces every prospect of a successful season, despite the war, but, at the same time, "will always be ready and only too willing to be governed by the wishes of the government and its needs."

"We look forward to a good year," he said. "The people have become so accustomed to baseball I think they would be lost without it. The 1917 season was good, considering all conditions. Naturally, after war was declared, the excitement following, occasioned by the efforts toward enlistments, diverted the attention of the people from their regular habits, causing them temporarily to forget amusements and recreation."

Baseball Real American Game "People must have some kind of outdoor amusement. Some play golf, some tennis, others motor. But the masses enjoy baseball. It is truly the American game. The Federal Administration has approved the game. We drilled our players in military tactics last season and will do it again next season."

As an argument that people want baseball as a wartime sport Hickey referred to the situation in Toronto, Canada, which last season won the International League pennant.

"Toronto had the best year in its history," he said, "in face of the fact that Canada has been deeply in the war for more than three years, and the fact that 10 per cent. of Toronto's population is in the military service. This shows plainly that the people recognize and desire that baseball is the kind they like."

Talks of Freak Pitching Legislation barring the spitball and other freak deliveries was a step toward improving the game, President Hickey believes.

Of the ball made to use as it is, not to be doctored, and we are going to prevent its being changed in any way," he said. "This will increase batting, and, as the people like lots of free hitting, we undoubtedly will add interest to the game."

With the signing of Edward E. (Ned) Egan as pilot of the Milwaukee club, the management roster of the association is complete, with the exception of Indianapolis. James C. McGill, owner of the club, has several leaders under consideration to succeed Jack Hendricks, who is to manage the St. Louis Nationals.

New Orleans Results First race (six furlongs, three-year-olds and up, claiming, purse, \$500). BULLY, 117 (O'Brien), 8 to 1; 2 to 1; 3 to 1; 4 to 1; 5 to 1; 6 to 1; 7 to 1; 8 to 1; 9 to 1; 10 to 1; 11 to 1; 12 to 1; 13 to 1; 14 to 1; 15 to 1; 16 to 1; 17 to 1; 18 to 1; 19 to 1; 20 to 1; 21 to 1;
